LASERS FOR LIFE®

Deep Tissue Laser Therapy™ is used to treat painful muscles and joints associated with acute and chronic soft tissue injuries. It is also indicated for helping relieve pain and stiffness associated with osteoarthritis via its ability to increase localized blood flow. These factors make therapeutic laser a sensible modality choice for post-activity recovery.

Soft Tissue Work

EXCLUSIVE MASSAGE BALL TECHNOLOGY

When laser therapy is applied directly to the skin in an on-contact manner, less energy is reflected, and tissue is compressed. This results in much more energy reaching the target tissue.

CLINICALLY STUDIED TO HELP IN THE TREATMENT OF:

- ▶ Neck Pain
- ▶ Low Back Pain
- ▶ Sciatica
- ▶ TMJ
- ▶ Elbow and Joint Pain
- ▶ Arthritis

INFLUENCE® TECHNOLOGY

Influence® Technology takes into account the patient’s unique absorption characteristics and specific clinical condition to help provide the most effective treatment. Patient specifications such as condition, body type, and skin type are taken into account. The in-depth protocol settings provide recommended parameters on treatment heads and power levels to aid in clinician confidence and reduced learning time.

EMPOWER IQ™ DELIVERY SYSTEM

Models: 40W XLi, 25W XPi

The LightForce® Empower IQ™ Delivery System is changing the game in laser therapy emission. Designed to be user friendly and responsive, Empower IQ™ is the new generation of delivery technology.

SMART HANDPIECE

Built-in dosing feedback technology with embedded finger switch and indicator lights. In order to achieve effective treatments and improve dosing accuracy, the Smart Handpiece assesses the operator’s speed and gives real-time visual and sensory feedback. The Smart Handpiece is ergonomically styled for operator comfort.
