

# Physiotherapy & Rehabilitation

Salus talent A

# EXCELLENCE IN PAIN THERAPY

Leading Rehabilitation Technology

## WHAT IS ELECTROMAGNETIC STIMULATION?

A series of Salus Talent products generate magnetic field of 3 Tesla which is about 600 times stronger than the normal bar magnet and penetrates deep inside of the body.

This strong electromagnetic power has made physiotherapists provide highly effective and fundamental treatment for acute and chronic pains.

The strong magnetic field (applying eddy current deep inside) passes through clothes, tissues and bones, which stimulates the region of treatment deep inside the body.

# Salus Talent<sup>®</sup>A

Most Reliable & Powerful  
Electromagnetic Stimulation Device

## FEATURES & BENEFITS

- Highly effective treatment result by deep penetrating magnetic field of 3 Tesla
- Non-invasive and non-contact transducer to patient
- Unique oil circulation cooling transducer for continuous treatment
- Wide range of pain applications

## SPECIFICATION

	Salus Talent <sup>®</sup>
Magnetic Power	3 Tesla $\pm$ 20%
Magnetic Frequency	Symmetric Biphasic Pulse, 1~100 Hz
Treatment Protocol	9 Manual Mode, 9 Auto Modes
Treatment Time	1~60 min.
Interface	4 Buttons, 1 Jog Shuttle
Dimension	46 x 52.6 x 98 Cm
Weight	30 Kg

## MAJOR CLINICAL APPLICATION

Back

Elbow

Shoulder

## FIELD OF APPLICATION

- Orthopedics
- Rehabilitation
- Genitourologist
