LOMBOSTRAP™

DONJOY

**DONJOY**

## **LOMBOSTRAP™**

- Lumbar support with 4 flexible lumbar stays and 2 supple abdominal stays. V-Straps for additional support.
- Support for injuries of the lower back needing hot/cold therapy application.

Adjustable lumbar support with back pockets for thermotherapy. Ideal for mild, chronic or acute lumbar back pain.

### **INDICATIONS**

- Acute low back pain. It provides an immediate analgesic effect due to the compression exerted
- Indicated for proprioceptive maintenance to avoid harmful postures and recurrences

### **CHARACTERISTICS**

- Made of ventilated elastic fabric
- 4 flexible dorsal stays and 2 soft abdominal whales
- Postural straps to adjust the level of compression
- Finger strap for easy donning and adjustment
- Available in 2 heights (21 and 26 cm) and in 3 sizes (1 to 3)
- Hauteurs dorsales : 21 et 26 cm
- Disponible en 3 sizes (S, M et L)

# SPINE BACK SUPPORT

## COMMON PATHOLOGIES

### *Lumbago:*

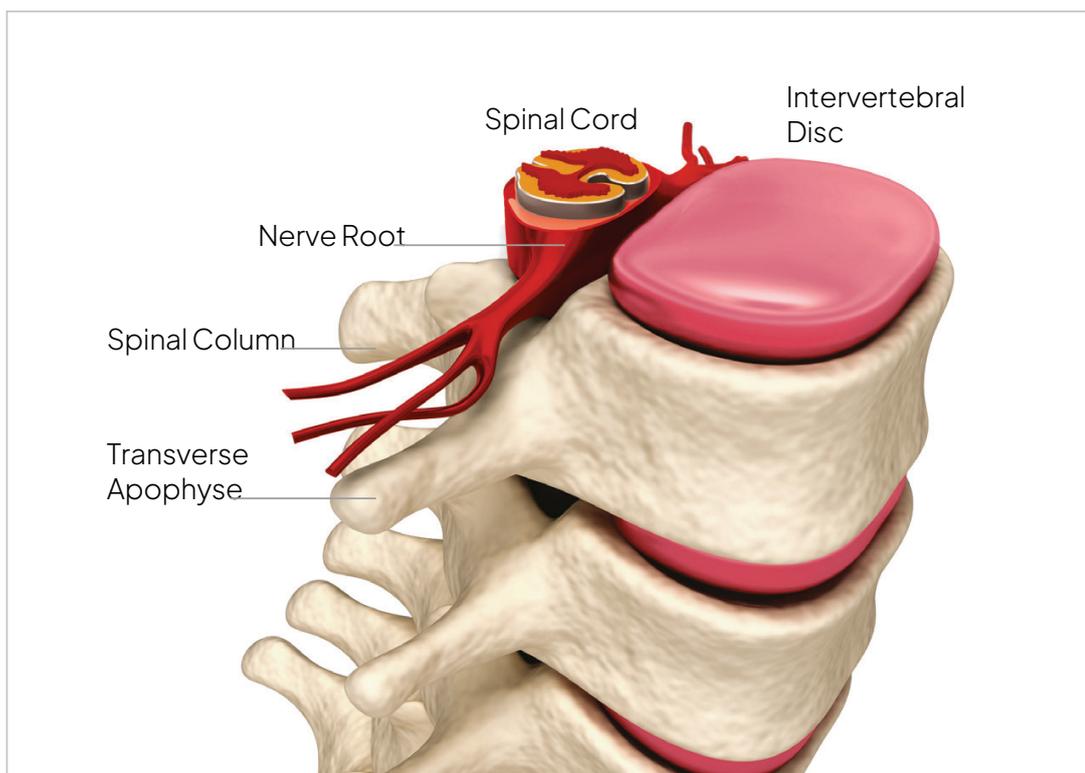

- or kidney circumference results in muscle contracture following significant or unusual exertion. The pain is intense and brutal and is located in the lumbar vertebrae. Lumbago can be cured within a few days but has a strong tendency to recur

### *A Herniated Disc:*

- is a degeneration of the intervertebral disc with migration of the nucleus through the annular ligament. It can cause compression of a nearby nerve and pain throughout the innervated area

### *Sciatica:*

- is the result of irritation or inflammation of the sciatic nerve. The pain radiates from the lower back to the buttocks and even to the foot

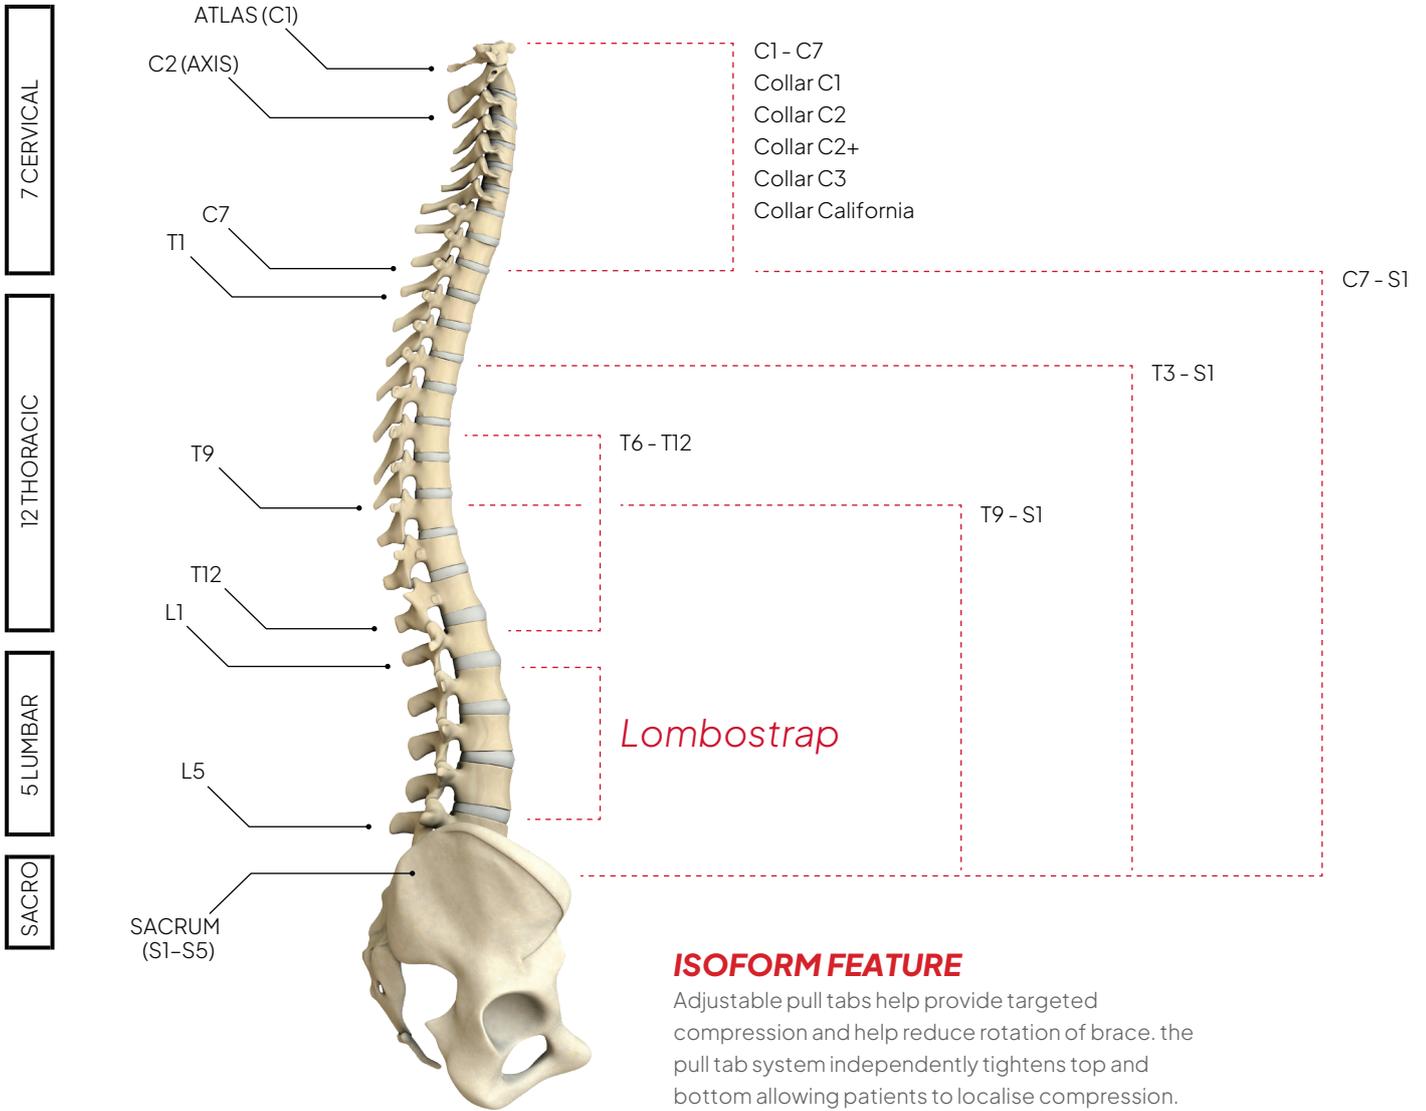

1. (Sub)acute Low Back Pain or Lumbago
2. Chronic low back pain
3. Temporary or permanent abdominal impairment (obesity)
4. Laparotomy or Ostomy
5. Post-operative visceral
6. Pregnancy and Postpartum
7. Sacroiliac pain

1. (Sub)acute Low Back Pain or Lumbago
2. Chronic low back pain
3. Symptomatic disc herniation
4. Low back pain
5. Disaster Recovery / Prevention

**Size**  
S / M / L / XL
